

Jim Louis and Meetings Community Win Award

Last night, MeCo represented by its founder Jim Louis, received the following award:

"Meco is Editor's Pick for Best Online Forum

This international group of planners has more than 2,400 members, who provide lively debates and information sharing about the industry we love. There's always something happening on Meco, and it's easy to see why many planners make it a part of their daily routine. While there are many sites in Cyberland that cater to planners, this one is special because it was founded by local planner James Louis from Best Meetings Inc. www.meetingscommunity.org

There are photos after the event, posted on www.mnmeetingsmag.com
